## *Strategies for Previewing a Collection of Texts on a Subject*

- *Think about subtopics you expect. Which are present across the texts? Which aren't? Note subtopics you didn't expect that are here. Are they in all the texts?*
  - *Make a list of main topics and the chapters in each book that address that subtopic, making a table of contents that applies across the texts.*
- 

From Unit 3: *Navigating Nonfiction*, Session 13
